

STATE OF MIND x WAKE UP COMIC BOOK & FILM WORKSHOP

This is a decision making workshop. Through the medium of film and comic book mentoring, this workshop uses a diverse set of characters to explore a range of difficult topics such as mental health, knife crime, gang culture and much more.

The inspiration for the stories comes from real life scenarios that young people face growing up in London.

The workshop will address thought provoking questions such as “what would you have done if you were in this character’s shoes and why?”

Draw the next scene in the comic. Write & act out the next scene in the film. It’s your choice- What Would You Do?
